

BYRON CENTER PUBLIC SCHOOLS

Helping Students Build Success Stories

February 13, 2025

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the 2023-24 educational progress for Brown Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Mrs. Tina Mysliwiec (Interim Principal) for assistance.

The AER is available for you to review electronically by visiting [Mi School Data: Brown Elementary](#) or you may review a copy in the main office at your child's school.

For the 2024-2025 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2023-2024. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2021-2022. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2021-2022. Some schools are not identified with any of these labels. In these cases, no label is given. Our school was given no label.

Brown Elementary School is one of the four elementary schools in Byron Center Public Schools. It serves approximately 440 students in grades DK-4 who mostly reside within the growing Byron Center community. Students at Brown Elementary School not only learn academic skills to reach their fullest potential, but are also instilled with the importance of being respectful, responsible, and safe citizens.

Brown Elementary School continues to hold academics in high regard. All students at Brown Elementary School are expected to show growth in all subject areas. Collectively, Brown Elementary School continues to implement highly effective instructional methods in order to increase proficiency levels. The Professional Learning Community process (PLCs) is Brown Elementary School's approach to addressing the challenge of improving proficiency for all students. Focusing on and answering the four questions that drive PLCs are pivotal to our success. The four questions that we use to drive our decisions are below.

- What do we expect our students to learn?
- How will we know they are learning?
- How will we respond when they don't learn?
- How will we respond if they already know it?

By setting attainable goals and expectations, using common assessments aligned to our state standards, having a sound Response to Intervention (RtI) program and Multi-Tiered Systems of Support (MTSS) in place, and Progress Monitoring, Brown Elementary School continues to rise to the top of the county and state in academics. Key challenges are identified and addressed through this process.

State law requires that we also report additional information.

Process for Assigning Pupils to the School:

Brown Elementary School students are Byron Center students in grades DK - 4. Students are assigned to the school by residing in the attendance areas defined by the district. In rare instances, a student attends a Byron Center elementary school outside of their attendance zone. This is done under special circumstances and for a specific reason to meet the best needs of the student.

School Improvement Plan:

Our School Improvement team meets regularly to discuss all components and facets of our building school improvement plan. Surveys to all stakeholders are sent out to gather both qualitative and quantitative data to ensure all voices are heard in order to build a plan for success. Brown Elementary School's current school improvement plan is up-to-date and constantly being reviewed in order to ensure student and building success.

Brown Elementary is committed to continuously refining its school improvement process by regularly evaluating existing goals, setting new objectives, and collaborating to enhance the school's overall performance. Our School Improvement team meets regularly to discuss all components and facets of our building school improvement plan. Surveys to all stakeholders are sent out to gather both qualitative and quantitative data to ensure all voices are heard in order to build a plan for success. The school has an approved improvement plan, which has been submitted to the state. This plan, developed in partnership with stakeholders, outlines specific goals and objectives to address student academic needs. Through a comprehensive analysis of various data points that measure academic progress, we have identified key areas for improvement and selected evidence-based strategies to address these needs.

Curriculum and Alignment:

Brown Elementary School has aligned curriculum in all content areas with the Michigan Curriculum Framework and the Michigan Merit Curriculum. Benchmarks can be found on the Michigan Department of Education website: [Michigan Academic Standards](#). Our assessments and report cards are also aligned with the curriculum. Classroom instruction is congruent with the curriculum expectations and is monitored constantly by building and district administration, as well as academic support personnel. For more information about the curriculum, please visit the Byron Center Public Schools [website](#).

Each grade level or content area team meets regularly to study curriculum challenges and to ensure that all students have common, equitable curricular experiences. A gap analysis is conducted annually with the M-STEP and MAP testing information, and the curriculum is examined for areas of strength and weakness. After this audit, necessary adjustments are made.

Common assessments with common scoring rubrics, a common curriculum, common core materials, and a common report card help us work toward our goal of equity. In addition, principals and other leaders in the school have common instructional expectations that are used to guide teacher evaluation. Professional development and constant communication between general education and special education staff also facilitate this process. We are committed to all of our students having multiple opportunities to learn and be successful in the core curriculum.

Student Achievement

Student results are displayed below. Utilizing this data and making decisions based off of the data allow for Brown Elementary School students to thrive. Below are achievement tables/charts for all third and fourth grade students in the subject areas of math and reading.

	2022-2023 M-Step Proficiency	2023-2024 M-Step Proficiency
3rd grade- ELA	88%	90%
3rd grade- Math	95%	>95%
4th grade- ELA	93%	87%
4th grade- Math	93%	95%

Parent-Teacher Conference Attendance

Brown Elementary School typically holds Parent/Teacher Conferences in October and March. Out of 437 students, face-to-face meetings with parents, phone calls, electronic communication, and letters regarding academics and/or behaviors were sent home to 100% of parents/guardians. Parents and guardians have access to their son/daughter’s grades through report cards that are given formally three times per year in addition to ongoing parent communication.

Closing

Byron Center Public Schools Mission Statement states “Helping Students Build Success Stories.” At Brown Elementary School, we understand that this is an integral part of an adolescent’s life and that we can play an important role in this preparation and pursuit of success. By continuing to provide a balanced academic and social/emotional curriculum, making learning relevant and rigorous, and using research-based instructional strategies in the classroom, Brown Elementary School will continue to prepare each and every student for success in all of their endeavors.

Sincerely,
 Tina Mysliwicz
 Brown Elementary Interim Principal
